[Ústav speciálněpedagogických studií \(upol.cz\)](https://www.upol.cz/ustav-speciálněpedagogických-studií)

Job Profile

- Preparation, delivery, and supervision of instruction, including lectures, exercises, seminars, and other forms of educational, scientific, or artistic activities.
- Ongoing and final assessment of students' knowledge and skills, including the evaluation of their academic performance.
- Supervising, advising on, and reviewing final projects, particularly seminar papers, bachelor's theses, and master's theses.
- Independent or team-based creative work in the fields of science, research, or the arts, including scientific, research, or development tasks within the scope of one's professional specialization.
- Publishing and presenting the results of creative work in academic journals, at conferences, or on other professional platforms.

Requirements

- A university degree in the field; a Ph.D. is required.
- At least three years of teaching or research experience.
- Communication and organizational skills.
- Personal and professional qualities necessary for independent teaching and research activities, publishing, and professional development.
- Active knowledge of English.
- No criminal record.

What we offer

- Interesting and varied work in the fields of education and research.
- A stable work environment at a leading university.
- 40 days of vacation.
- Meal allowance and other benefits.
